PURPOSE

Aging in Ohio is a foundation course for anyone involved with the aging network, including Area Agency on Aging staff, Ohio Department of Aging staff, aging services staff, direct service organizations, boards and advisory council members, long-term care facility staff, students and other interested individuals. For over 25 years, experienced professionals have provided an introduction to the aging network, aging programs and services, demographic trends and the organizations, agencies and funding sources that comprise the aging network in this day-long orientation. In addition to this overview, Aging in Ohio includes information on the policies and issues that face the aging network and expands existing knowledge of the network and related programs.

CONTINUING EDUCATION
