

o4a Associates Membership Program

The Ohio Association of Area Agencies on Aging

Your connection To Legislation and Policy Affecting Aging Ohioans For Over 35 Years

“This is my best source for information on legislation affecting older adults in Ohio. Thank you.”

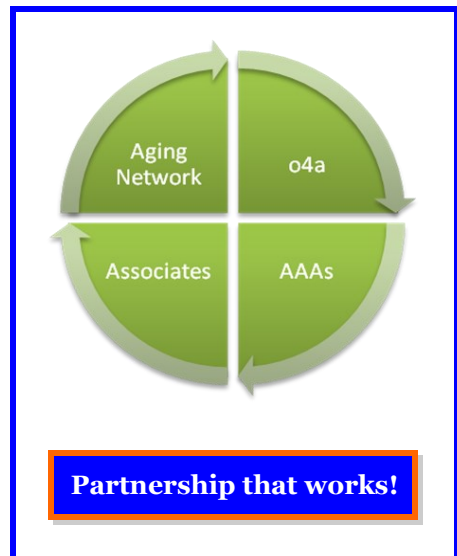

“The Legislative Bulletins are very easy to read and understand. They keep us up-to-date on what we need to know.”

For years, the Area Agencies on Aging (AAAs) have been leaders in the aging and disability network. The Ohio Association of Area Agencies on Aging (o4a) has played a critical role in supporting the aging and disability network by providing you with the information, analysis, and resources necessary to be at the forefront of aging and disability related policy and budget decisions.

Associates receive the same critical and timely information and services that Area Agencies on Aging receive from o4a. Through the Associates Program, o4a will:

- Strengthen and unite the aging and disability network
- Inform your organization of critical policy issues
- Provide your organization with the resources and education necessary to be a leader in the aging network

Value. Connection. Opportunity.
